

# IUSS

Scuola Universitaria Superiore Pavia

## **Esame finale Dottorato di Ricerca in Scienze Biomolecolari e Biotecnologie**

**Commissione giudicatrice:**

**Prof.ssa Emanuela Corsini, Prof. Davide Vigetti, Dott.ssa  
Silvia Garavaglia**

**Programma:**

**14:30-15:15 Chiara Paganini: "Chondrodysplasias caused  
by defects in proteoglycan biosynthesis: phenotyping and  
pharmacological approaches using murine models"**

**15:15-16:00 Martina Palamini: "Characterization of the  
molecular flexibility of the extracellular domains of muscle-  
specific kinase MuSK"**

**16:00-16:45 Melania Maria Serafini: "Counteracting  
oxidative stress, inflammation and  $\alpha\beta$  aggregation with  
nature-inspired hybrids: relevance for nrf2 pathway  
involvement in neurodegeneration and aging"**

**16:45-17:30 Quoc Thai Nguyen "Flavoenzymes at the  
crossroads of biocatalysis and structural biology"**

**Proclamazione**

**Martedì 24 aprile 2018**

**Sala del Camino - Palazzo del Broletto**

**Piazza della Vittoria 15 - Pavia**

Ingresso libero fino ad esaurimento posti
